Course Information

Course Title	Generative AI for Concept Art (C037)
Course Reference	C037
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Duration	1 day · 7.5 instructional hours per day (7.5 hours)
Daily Timing	9:30 am – 6:30 pm (1-hour lunch; tea breaks within training time)
Mode	Instructor-led, hands-on practical labs
Trainer	Dr. Alfred Ang

Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Explain how generative-AI image tools create concept art, compare Midjourney, Stable Diffusion and Adobe Firefly, and navigate the generate–review–refine loop.
- LO2: Write effective, structured prompts that control the subject, style, composition, shot, lighting and level of detail of generated concept art.
- LO3: Generate consistent character concepts — a hero character with costume and expression variations — from a written brief.
- LO4: Generate environment and key-location concepts, controlling place, time of day, mood, scale and shot.
- LO5: Generate props, assets and gadgets as a clean, coherent asset sheet.
- LO6: Develop a consistent visual style and strong compositions so a set of concept art reads as one world.
- LO7: Iterate and refine artwork using variations, seeds, image-to-image and style/character references.
- LO8: Edit and enhance concept art with inpainting, outpainting, upscaling and a hand paint-over finish.
- LO9: Assemble and present a concept-art portfolio, and apply commercial-use and IP considerations.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.

Course Schedule

Day 1 — Build a complete concept-art pitch pack for Emberdrift — a hero character, a key environment, a prop set, a locked house style and a finished key-art piece — by generating with Midjourney, Stable Diffusion and Adobe Firefly, then refining with variations, image-to-image, inpainting, upscaling and a hand paint-over into a portfolio-ready, commercially-considered set

Time	Duration	Topic / Activity
9:00–9:20	20 min	Welcome, course introduction, ground rules, and setup: signing in to your AI image generator (Midjourney, a Stable Diffusion tool such as Leonardo.Ai, or Adobe Firefly) and confirming your image editor with generative fill is ready for the labs
9:20–10:05	45 min	TOPIC 01 — Getting Started with Generative AI for Concept Art: introduction to generative AI for art; popular AI image tools (Midjourney, Stable Diffusion, Firefly); writing effective prompts for concept art; generating characters, environments and props (concepts + live demo)
10:05–10:45	40 min	Hands-on: Lab 1: Get Started with Generative AI Image Tools
10:45–11:00	15 min	Tea break
11:00–13:00	120 min	Hands-on: Lab 2: Write Effective Prompts for Concept Art; Lab 3: Generate Character Concepts; Lab 4: Generate Environment Concepts
13:00–14:00	60 min	Lunch break
14:00–14:30	30 min	Hands-on: Lab 5: Generate a Prop and Asset Sheet
14:30–15:00	30 min	TOPIC 02 — Creating and Refining Concept Art with AI: developing styles and compositions; iterating and refining artwork; editing and enhancing with AI; building a concept art portfolio (concepts + live demo)
15:00–16:15	75 min	Hands-on: Lab 6: Develop a Consistent Style and Strong Compositions; Lab 7: Iterate and Refine Artwork
16:15–16:30	15 min	Tea break
16:30–17:50	80 min	Hands-on: Lab 8: Edit and Enhance with Inpainting,

		Outpainting and Paint-Over; Lab 9: Build and Present the Concept-Art Portfolio
17:50–18:00	10 min	Course wrap-up, assembling and presenting the concept-art portfolio, commercial-use and IP considerations, and next steps

Total scheduled time: 480 minutes (8 hours) excluding lunch — of which 450 minutes (7.5 hours) are instructional, plus 30 minutes of tea breaks.

Lab Reference (aligned to course topics)

Topic	Coverage	Labs
Topic 01: Getting Started with Generative AI for Concept Art	55%	Lab 1, Lab 2, Lab 3, Lab 4, Lab 5
Topic 02: Creating and Refining Concept Art with AI	45%	Lab 6, Lab 7, Lab 8, Lab 9
