

Lab 08 - Appearance, Graphic Styles and Typography

Course: Adobe Illustrator Fundamentals for Beginners (C037) Version: v1 | 4 October 2026

Scenario

Develop two headline treatments for stakeholder review and recommend the one that best fits a professional event campaign.

Objective

Design a typographic poster with live type and reusable appearance treatments.

Supplied Illustrator/vector files

- appText.ai
- graphicStyles.ai
- type.ai

Detailed procedure

1. Open appText.ai and save Lab08-Type-Appearance.ai.
2. Create point type for the headline and area type for supporting copy; correct any overset text.
3. Set hierarchy with size, weight, leading, tracking, alignment and spacing.
4. Build Treatment A with multiple fills or strokes in the Appearance panel and save a Graphic Style.
5. Build Treatment B with restrained transparency or a live effect while retaining editable type.
6. Present both options, record stakeholder feedback, revise one treatment and export the final poster proof.

Evidence to retain

Live-type AI master, two treatment proofs, feedback note and revised final poster.

Acceptance criteria

- [] No overset or missing-font warning remains.
- [] Hierarchy is clear at delivery size.
- [] Appearance attributes remain editable.
- [] The final choice reflects recorded stakeholder feedback.

Reflection prompts

- Which decision most improved the message or focal hierarchy?
- How does the Layers or Appearance panel prove that your technique remains editable?
- What rights or provenance evidence must accompany the finished image?
